# Commercial Vehicle Warranty

*Our common quality commitment*

The Commercial Vehicle Warranty by DuPont Refinish offers significant support to bodyshops specialising in commercial van and truck repairs. Backed by the world's leading refinish paint producer, even smaller operations will benefit from being able to offer this fundamental guarantee of durable quality and professional workmanship.

Through the Commercial Vehicle Warranty, you will be able to offer a 5-year guarantee to operators of commercial vehicle fleets, as well as to intermediary companies in the lease and insurance sectors.

With DuPont Refinish on your side, you can afford a guarantee that you might possibly hesitate to offer on your own.

Since the Warranty applies to the use of proven DuPont Refinish products and repair processes, your customers can be certain of receiving a repair of the highest quality. Having your workmanship endorsed by a DuPont Refinish Warranty will benefit your reputation, and be a positive factor in a customer's decision to award their repair work to your bodyshop.

The Commercial Vehicle Warranty package contains your official certificate and participation sign, guidelines on products and procedures, and a full set of administration documents. Apply today to get DuPont Refinish on your side!
