# Fast Repair

*Small repairs for big results*

More than half of repair jobs actually involve only minor damage, most of which can be repaired relatively quickly and economically. To address this important source of repair work, the Fast Repair system by DuPont Refinish provides complete solutions for performing the repairs, and effective ways of advertising the service.

Chipped paint, minor scratches, small dents that don't need a repaint, even repairs to wheels and interior trim - there are plentiful opportunities for quick and efficient repairs to perform, which can all add up to a substantial source of revenue. With Fast Repair, your bodyshop will have a comprehensive answer for most of them, and the means to advertise this essential service to potential clients.

Through Fast Repair, private clients will be relieved and reassured by your no-fuss efficiency, demonstrating that you're entirely on their side. Fleet operators, and especially lease and insurance companies will be attracted by your fast turnaround and competitively-priced offer. And because Fast Repair work does involve a high degree of skill, there'll be less chance of local competition in this lucrative field.

Next to a full set of advertising materials, the Fast Repair package includes a manual with guidelines and proven repair methods, as well as offering a seminar for your workforce. If you take pride in productivity and professionalism, then Fast Repair is made for you. Apply today!

## Features
